Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112, 1st Paragraph

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-17 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In the instant case, there is a discrepancy with Claim 1, lines 4-5, which states that the hole is disposed intermediate the top and bottom edges and the description at page 5, lines 3-4 which states that "*A drilled hole 23 intermediate the edges 24 and 26 is disposed not quite halfway between the top portion 16 and the bottom portion 18.*"

Claim Rejections - 35 USC § 112, 2nd Paragraph

Claims 1-17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1, 8, and 11 are inaccurate and/or misdescriptive. See rejection advance above regarding 35 USC § 112, 1st Paragraph.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 3654

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5, 7-9, 11-15, and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Close (U.S. Patent No. 3,711,901).

With respect to claims 1-5, 7-9, 11-15, and 17, Close, Figures 1-7, teaches a tensioning and coupling apparatus including a planar member having a top edge, a bottom edge and opposing side edges, a drilled hole 23 disposed intermediate said opposing side edges; a slot 15 adjacent to said drilled hole 23; a pair of diametrically opposed slots 17,19; and a series of slots 13,14 alternately disposed on said opposing side edges.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 6, 10 and 16 rejected under 35 U.S.C. 103(a) as being unpatentable over Close as applied to claims 1-5 and 7-9 above.

With respect to Claims 6 and 10, Close is advanced above. Close teaches all the elements of the tensioning and coupling apparatus except for a recess for indicia. It should be noted that placing indicia on items is notoriously old and well known. As such, it would have been obvious to one of ordinary skill in the art to provide Close with a recess for indicia for the purpose of placing advertising or for identification purposes.

Art Unit: 3654

Response to Arguments

With respect to applicant's remarks on page 7 regarding the Close reference, it should be noted that the independent claim as set forth reads on the Close reference. It is of little or no consequence how the Close reference operates. Further, the examiner has identified by number where each of the slots are located.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William A Rivera whose telephone number is 703-308-2684. The examiner can normally be reached on Monday to Friday - 7:30 to 4:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kathy Matecki can be reached on 703-308-2688. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
